Our seminar series continues in 2021

Our seminar series “Structure preserving methods for hyperbolic equations” will continue next year. The topics discussed will be broader. It is now called “Seminar on hyperbolic equations: structure preserving methods and other topics”, see here. The time of the seminar will change, such that Americans can listen to lectures live. It will take place on Fridays at 3 pm.

We have enlisted a nice roster of speakers, see the calendar to the right.
