Marc Hermann’s PhD defense is drawing closer

Marc Herrmann submitted his PhD thesis about four months ago. The referee reports are ready now. This means that in about a month’s time, it would be possible to hold his defense. Of course it might take longer, depending on circumstances.

Happy Birthday
Recently was Marlies Pirner’s birthday. Many happy returns!

Invitation to NumHyp 2021

July 26 - 30 in Trento the bi-annual conference “Numerical methods for hyperbolic problems, NumHyp2021” will take place organized by Michael Dumbser. I have been invited to give a lecture there.

This conference will celebrate the 75th birthday of Tito Toro, the author of the Riemann solver book.

Concert in our house will take place on May 30

One of the concerts of the Mozartfest Würzburg 2021 will take place in our house. On Mai 30 members of the Mahler Chamber Orchestra will perform a so-called concert in living rooms as part of their Mozart Momentum 1785/86 series with Leiv Ole Andsnes.
Ongoing seminar series

Here is an ongoing online seminar series, where past lectures can be viewed online: Fifty Years of Kruzhkov Entropy Solutions.
