Happy New Year 2022

This year both Farah Kanbar and Sandra Warnecke plan to defend their thesis. Wishing them and everyone else success in their pursuits.

Marlies submitted an ERC grant proposal

The European Research Council (ERC) pays grants to excellent scientists. These grants typically pay for one's own salary for five years plus funds for PhD and post-doc students.

One type of grant is the ERC starting grant, which is what Marlies Pirner applied for. Such ERC grants are quite competitive. For those people, to whom this grant is awarded, it is an important stepping stone in their career.

Good luck, Marlies!
